Introduction

Community Care Facilities Licensing Mission Statement:
Our community care facilities licensing program protects and promotes the health, safety and well-being of vulnerable children and adults in licensed care facilities. We do this through education, collaboration and regulation.

This guide is a resource for applicants wishing to open a licensed Family Child Care or In-Home Multi-Age Child Care including:
- Renovating an existing residence in order to open a new child care
- Building a new purpose-built residence

It is intended to provide you with an understanding of the application process, space and design requirements outlined in the legislation, and links to useful resources to help get you started.

In addition to the requirements in the Child Care Licensing Regulation and other legislation, applicants should be aware that each municipality will have their own requirements. Please check with the municipality in your area for more information.

Terms

For the purposes of this guide, the following definitions apply.

- **Adults** include the individuals who work or volunteer in a facility including early childhood educators, assistants, responsible adults, administrative, clerical and housekeeping staff.

- **Developmentally Appropriate** means that the space, activities, equipment and materials are appropriate for the age and developmental level of the children.

- **CCFL (Community Care Facilities Licensing)** is the program responsible for the licensing and monitoring of child and residential licensed facilities.

- **Facility** refers to a building, or portion of a building, in which licensed care is provided, as well as the outdoor area dedicated to the program.

- **Program** is the daily indoor and outdoor activities that are planned for children, and meets children’s developmental needs as described in Schedule G of the *Child Care Licensing Regulation*. 
Prior to submitting your application to Licensing

The following resources may be helpful as you prepare to submit your application to Licensing:

- https://www2.gov.bc.ca/gov/content/family-social-supports/caring-for-young-children/running-daycare-preschool/open-licensed-child-day-care/licensed-child-care-facility

What do you need to consider?

Qualifications

Family Child Care is a program where the licensee is a responsible adult

In-Home Multi-Age Child Care is a program where the licensee is an Early Childhood Educator

Can I hire someone to run the program?

Family Child Care and In-Home Multi-Age Child Care are both programs where the licensee personally provides care within the licensee's personal residence.

How many children can I have?

Your licensed capacity will be determined at the final inspection and is based on usable indoor and outdoor space, however each type of care also has a maximum group size that is outlined in the Child Care Licensing Regulation http://www.bclaws.ca/civix/document/id/complete/statreg/332_2007#ScheduleE
**Group Size Combinations: Family Child Care**

<table>
<thead>
<tr>
<th>Ages of children in care programs</th>

Group Size Combinations: In-Home Multi-Age

Ages of children in care programs

2.1 (1) Subject to subsection (2), a child is eligible to receive care in a care program if
   (a) the child’s age matches the age or is within the age range to which the care program applies, or
   (b) the child will be eligible under paragraph (a) within one month after the date the child begins receiving care.

What are the possible age combinations if you have a child registered who is under 12 months of age?

If your space is large enough for the maximum group size of eight children, and you have a child under the age of 12 months registered, there are three possible combinations for your group:

1. Under 12 months old
   - One child who is under 12 months of age
   - Two children who are between 24 months and 36 months old (children can enter program at 23 months but must be turning at least 24 months of age within one month of their start date)
   - Five children who are between 36 months and 12 years old (children can enter program at 35 months but must be turning at least 36 months of age within one month of their start date)

2. Under 12 months old
   - One child who is under 12 months of age
   - One child who is between 24 months and 36 months old (child can enter program at 23 months but must be turning at least 24 months of age within one month of their start date)
   - Six children who are between 36 months and 12 years old (children can enter program at 35 months but must be turning at least 36 months of age within one month of their start date)

3. Under 12 months old
   - One child who is under 12 months of age
   - No children between 24 months and 36 months old
   - Seven children who are between 36 months and 12 years old (children can enter program at 35 months but must be turning at least 36 months of age within one month of their start date)
What are the possible age combinations if you do not have any children under 12 months of age?

If your space is large enough for the maximum group size of eight children, **and you do not have a child under the age of 12 months registered**, there are **four possible combinations** for your group:

<table>
<thead>
<tr>
<th></th>
<th>Under 12 months old</th>
<th>12-36 months old</th>
<th>36 months-12 years old</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>No children under 12 months of age</td>
<td>Three children who are between 24 months and 36 months old (children can enter program at 23 months but must be turning at least 24 months of age within one month of their start date)</td>
<td>Five children who are between 36 months and 12 years old (children can enter program at 35 months but must be turning at least 36 months of age within one month of their start date)</td>
</tr>
<tr>
<td>2</td>
<td>No children under 12 months of age</td>
<td>Two children who are between 24 months and 36 months old (children can enter program at 23 months but must be turning at least 24 months of age within one month of their start date)</td>
<td>Six children who are between 36 months and 12 years old (children can enter program at 35 months but must be turning at least 36 months of age within one month of their start date)</td>
</tr>
<tr>
<td>3</td>
<td>No children under 12 months of age</td>
<td>One child who is between 24 months and 36 months old (child can enter program at 23 months but must be turning at least 24 months of age within one month of their start date)</td>

</tr>
</tbody>
</table>
**Finding a suitable location: Legislated Requirements**

<table>
<thead>
<tr>
<th>Required indoor space:</th>
<th>Required outdoor space:</th>
</tr>
</thead>
<tbody>
<tr>
<td>The <em>Child Care Licensing Regulation, Section 14 (1)</em> states that a licensee must have at least 3.7m$^2$ of usable floor area per child. <em>The usable space does not include hallways, built-in storage areas, bathrooms, kitchens, or nap areas for children under 36 months of age.</em></td>
<td>The <em>Child Care Licensing Regulation, Section 16 (1) (a)</em> states that a licensee must have at least 6m$^2$ of outdoor play area per child.</td>
</tr>
</tbody>
</table>

**What does 3.7m$^2$ look like?**
3.7m$^2$ (or 40ft$^2$) is approximately the size of a King Size mattress...

**What does 6m$^2$ look like?**
6m$^2$ (or 65ft$^2$) is approximately the size of a King Size bed plus nightstands and walking space...

**A special note about Family Child Care:**
The intent of Family Child Care is to provide a family-centred environment where children are able to use any floor of the home, however any designated area should, at minimum, meet the requirements of group child care which is 3.7m$^2$ of usable floor space per child.

**Orientation Sessions**
The process of applying for a licence can be challenging, and to help support you we offer online orientation sessions which we strongly encourage you to attend. Please contact your local Licensing office for a copy of the current schedule and registration information.

What you need to consider before you sign a lease, or purchase a premise...

Licensing Officers are often asked for help or input from applicants who are about to enter into a lease agreement, or secure a mortgage on a premise, and here are some important things to consider.

**Will a Licensing Officer be able to guarantee that my space will be licensed?**
During the initial inspection, the Licensing Officer is only able to comment on the suitability of the space, meaning that it appears that the space could potentially function as a licensed child care space. The process to become licensed includes licensing and municipal inspections, both of which help determine what needs to be done to the physical space before a licence can be issued.

**I need to sign a lease agreement or else I will lose the space. Will the Licensing Officer be able to do the initial inspection this week?**
Each application is processed in order of receipt, and while Licensing makes every effort to process applications in a timely manner, it may not always be possible to conduct the initial inspection prior to the deadline given by a landlord for signing a lease. It is the responsibility of the applicant to use the information in both the Community Care and Assisted Living Act and the Child Care Licensing Regulation to help guide decisions about entering into a lease agreement or mortgage.

Once you have submitted an application a Licensing Officer will contact you within 2-5 business days to confirm receipt of your documents and to discuss next steps. Please note that submitting an incomplete application will result in processing delays. Details of the application documents required by Licensing are outlined on page 16.

**How long does it take to become licensed?**
There are a number of steps involved in the application process and the time required for completing these steps will vary for each applicant, depending on the complexity of the application.
Submitting an application

In order to initiate the application process please submit the following:
- A completed Application for Licence form (see Appendix A)
- A detailed description of the care program to be offered Child Care Licensing Regulation (CCLR) Schedule B (2)
- Site Plans CCLR Schedule B (6) (a), (b), (c)
- Floor Plans CCLR Schedule B (9) (a), (b), (c), (d), (e), (f)
- Information regarding the premise CCLR 9.1 (3) (a), (b), (c)

Ensuring that you submit all of the necessary documents will prevent a delay in your application process. A Licensing Officer will contact you to confirm receipt of your full application, and to discuss next steps. Please note that applications are followed up on in the order in which they are received.

Completing an Application for Licence Form

A copy of the Application Form is attached in the appendix, and an electronic copy can be emailed to you. Please complete all sections of the form.

Top section
Indicate if this is a New Application or an Amendment.

Facility Data
- The “Facility Name” is the name that will appear on the licence.
- The “Facility Address” is the exact street address of the facility.

Manager Data
- The “Manager Name” must be the manager’s legal name and be written as it will appear on the licence.

Licensee Data
- The “Licensee Name” is the legal name of the organization or individual that will be operating the facility.
- The “Licensee Mailing Address” is the address of the organization or individual that will be operating the facility.
- The “Contact Person” is the person who the Licensee is authorizing Licensing to communicate with during the application process*.
  *Note: The Licensee is able to provide permission for Licensing to share information and communications with other relevant parties such as a project consultant or architect in the case of a new build. This permission would need to be in writing, and can be sent to the Licensing Officer by email.
- “Business Type” In the case of Family Child Care or In-Home Multi-Age Care, the only option is Sole Proprietorship which means that the business is owned by one individual.

Proposed Service
Check the applicable service type and include the capacity.

Signatures
- The “Licensee Signature” is that of the Licensee
- The “Licensee Name” is the name of the individual who has signed the form.
- The “Job Title/Position” is that of the licensee representative in the organization.
- The “Date of Application” is the date that the licensee representative signs.
Description of the care program to be offered

Suggestions for information to include:

- Licensee information
- Services proposed eg type of care
- Hours of operation
- Capacity
- Program overview / philosophy

Site Plans

Requirements:

Schedule B, Section 6, of the Child Care Licensing Regulation provides information on site plan requirements to be submitted to Licensing as part of your application.

Schedule B

6 An applicant must provide a site plan, drawn to scale, showing all of the following:
   (a) the proposed location of the community care facility, including the property boundaries;
   (b) subject to section 8, the location and dimensions of the outdoor play area intended for regular or daily outdoor activities;
   (c) if children will be attending outdoor play areas or activities located outside the property boundaries on a regular or daily basis,
      (i) the distances from the community care facility to the outdoor play areas and activities,
      (ii) the routes to the outdoor play areas and activities, and
      (iii) any major physical features that may affect the safety of children, including roads and bodies of water, located along the routes to, and in the immediate vicinity of, the outdoor play areas and activities.

Considerations:

In addition to legislated requirements there are also other things to consider when creating your site plans. These would be discussed with your Licensing Officer and could include (but are not limited to) ...

- Is there direct access to the outdoor space to facilitate outdoor play?
- Does the outdoor space have adequate shade?
- Does the outdoor space offer equipment to develop all eight senses?

Sample site plan showing the location of the facility, and the property boundaries
Sample site plan showing location of outdoor play area

Floor Plans

Requirements:
Schedule B, Section 9, of the Child Care Licensing Regulation provides information on floor plan requirements to be submitted to Licensing as part of your application.

Schedule B
9 An applicant must provide a floor plan showing all of the following:
   (a) the inside dimensions of each room and the width of each corridor and stair;
   (b) the location and size of windows and the height of windowsills from the floor;
   (c) the location of accommodation reserved for family or employees, and for children who are sleeping;
   (d) the location of toilets, wash basins and diaper changing surfaces;
   (e) the location and size of the fixed equipment in each room;
   (f) the location of all exits.

Considerations:
In addition to legislated requirements there are also other things to consider when creating your floor plans. These would be discussed with your Licensing Officer and could include (but are not limited to) ...

- Is there adequate natural light in the rooms?
- Can the bathroom be easily supervised while still maintaining privacy for the children?
- Does the flow of the space work for child care?
- Is there adequate storage?
- Will the children have access to the whole home, or a designated area?
Sample floor plan (ground level of the home)

Porch: Will be used as activity space for the children
18ft 10in x 7ft 6in

Living Room: Will be used as main activity room for the children
18ft 10in x 16ft 6in

Kitchen: Used by children at mealtimes
18ft 10in x 16ft 6in

Den Area: Will be used as a nap area for the children
11ft 4in x 10ft

Dining Area: Will be used as an activity room for the children
15ft 4in x 12ft 8in

Happy Family Child Care
12345 North Street
Any town, BC
V1A 1A1
Sample floor plan (second floor of the home)

- Covered balcony: Family use only
- Den Area: Can be used by the children as activity space
  - 18ft 10in x 16ft 6in
- Spare Bedroom: Family use only
- Home Office: Family use only
- Family use only
- PORCH
Sample plan showing location of all exits
Design Requirements and Considerations:
Interior space

Creating a Family Child Care or In-Home Multi Age Child Care is a complex task. Offering care in your home means that the space has to meet the individual needs of the children, as well as the needs of your own family.

Requirements:
Sections 14 and 15 of the Child Care Licensing Regulation provide information on facility requirements.

Physical requirements of facility

14  (1) A licensee, other than a licensee who provides a care program described as Family Child Care or Child-minding, must have for each child at least 3.7 m² of usable floor area in the community care facility, excluding
   (a) hallways,
   (b) built in storage areas,
   (c) bathrooms, and
   (d) fixed appliances, or, if not fixed, large appliances that are not normally moved from one area to another.

   (2) A licensee must have one toilet and wash basin for every 10 children or fewer.

   (3) A licensee, other than a licensee who provides a care program described as Family Child Care or In-Home Multi-Age Child Care, must ensure that the toilets and wash basins referred to in subsection (2) are on the same floor as the community care facility.

   (4) A licensee, other than a licensee who provides a care program described as either Preschool (30 Months to School Age) or Group Child Care (School Age), must have in a community care facility a sturdy surface for changing diapers, located outside the food preparation area, next to both
      (a) a covered container for soiled clothing, and
      (b) a wash basin.

Furniture, equipment and fixtures

15  (1) A licensee must supply equipment, furniture and supplies that are
    (a) of sturdy and safe construction, easy to clean and free from hazards, and
    (b) located so as not to block or hamper an exit in the case of fire or other emergency.

    (2) A licensee must ensure that each piece of furniture or equipment for sleeping
        (a) is used by only one child at a time,
        (b) is clean and comfortable, and
        (c) is appropriate for the size, age and development of the children intended to use it.

    (3) A licensee providing a care program to any child younger than 36 months of age must provide a separate sleeping area located away from any activity area.
**Considerations:**

In addition to legislated requirements there are also other things to **consider** when designing your interior space. These would be discussed with your Licensing Officer and could include (but are not limited to)...

<table>
<thead>
<tr>
<th>Sleeping Area</th>
<th>Eating Area</th>
<th>Entrance</th>
</tr>
</thead>
<tbody>
<tr>
<td>How will I supervise non-sleepers?</td>
<td>Will the children eat in the kitchen or somewhere else?</td>
<td>Would this be a good place for a sign in/out area?</td>
</tr>
<tr>
<td>Where will I store bedding?</td>
<td>Will they bring food from home? If so, how will I store it safely?</td>
<td>Is there enough space for parents to help their children get ready at drop-off and pick-up time?</td>
</tr>
</tbody>
</table>

<table>
<thead>

</tr>
</tbody>
</table>
Design Requirements and Considerations:
Outdoor play areas located within the property boundaries

Requirements:
Child Care Licensing Regulation,
http://www.bclaws.ca/civix/document/id/complete/statreg/332_2007#section16

Director of Licensing Standards of Practice, Safe Play Space
https://www2.gov.bc.ca/assets/gov/health/about-bc-s-health-care-system/child-day-care/safe_play_space.pdf

Director of Licensing Standards of Practice, Active Play.

Considerations:
There are also other things to consider when designing your outdoor play area. In order to meet the requirements of Schedule G of the Child Care Licensing Regulation regarding the physical development of children you need to consider how your outdoor space will encourage the development of large and small muscle skills appropriate to each child's level of development.

Did you know that we actually have more than 5 senses? Most people are aware of sight, hearing, smell, taste and touch, but we also have 2 hidden senses Vestibular (Body balance and sense of movement) and Proprioception (Sensations from our muscles and joints) which can be greatly enhanced by the design of our outdoor environment:

The Vestibular Sense offers information about balance, equilibrium, and spatial relationships.
Am I upside down or upright? Am I swinging or climbing too high?
Activities that ask children to balance, spin, or rock all support vestibular development. Consider play equipment that encourages children to move their bodies in different directions such as a swing, climbing wall, balance log, or a horizontal crawl tube.

Proprioception allows children to use their bodies in appropriate, successful, and skillful ways.
Am I seated correctly on the swing? Am I about to fall? Am I too close to other people?
Activities which provide the sensation of stretching, pushing, or pulling on muscles and joints activate the sense of proprioception. Consider play equipment that involves jumping, pushing, pulling, and hanging such as a swing, teeter-totter, or overhead ladder.

The centrifugal force experienced when children spin, roll and swing activates the fluid-filled cavities in the inner ear. These activities help the development of both sides of the brain, they help children pay better attention, since both sides of the brain are being used, and they enhance vestibular stimulation, which helps the brain decide if it is ready for more learning. To help you design an outdoor play area that encourages each aspect of a child’s physical development here are some examples of outdoor play spaces that have been designed with the vestibular and proprioception senses in mind.
Benefits:
Slides promote balance and coordination, and increase stretching and flexibility.

Considerations:
- A slide embedded in a hill provides children with an opportunity to climb but with less chance of falling.
- Slides should be longer than the body length of the children to allow for skill development.
Swinging and spinning

Benefits:
Swinging develops balance, muscle strength and fine motor skills. Holding on to the cord or chain of a swing also strengthens grip strength and finger coordination, an essential milestone for children learning to write.

Considerations:
- A saucer swing can accommodate more than one child at a time.
- A rope swing allows for both swinging and hanging upside down.
Crawling, crouching and quiet spaces

Benefits:
Crawling or crouching encourages flexibility and bilateral coordination (using both sides of the body at the same time)

Considerations:
- Huts, tents or forts also provide opportunities for children to separate from sensory overload and have time alone outside
- Tunnels can be easily created without expensive equipment
Dramatic Play

Natural “housekeeping” area

Rocks and sand create a natural play area

DIY car track

“Sound wall” with found materials
Benefits:
Sand play promotes large muscle skills (as children dig, pour, sift and scoop), hand-eye coordination, and small muscle control.

Consideration:
A sandbox doesn’t have to be a ‘box’!
Balancing

Benefits:
Balance is the ability to keep a controlled position during a specific task, and helps us in walking, climbing or even sitting. It also helps us develop coordination.

Considerations:
- Stepping logs of varying heights can be an inexpensive way of promoting balance.
- Larger logs can be used to sit, stand or climb on
Benefits:
Climbing helps children to develop balance, coordination, and fine motor skills such as dexterity, grasping and gripping. It also enhances spatial and directional awareness, and problem-solving skills.

Consideration:
Tree stumps and logs provide opportunities to climb on a natural structure (It is important to provide a resilient surface below for safety).
Mud kitchens

Benefits:
Mud Kitchens encourage sensory, imaginative, creative and exploratory play. They also enhance the development of fine and gross motor skills, plus social skills.

Consideration:
Using old pots and pans is an inexpensive way to create a mud kitchen.
Benefits:
Open areas with no fixed equipment provide children with the opportunity to engage in “heavy work” – any activity that pushes or pulls on the body, specifically our joints where the receptors are for proprioception.

Consideration:
Wagons for pushing and pulling, wheelbarrows for transporting items outside
When designing your outdoor play area, ask yourself the following questions:

- Does the space contain a variety of landscape features such as grassy bumps, hills, pathways?
- Are there a variety of surfaces (eg grass, sand, smooth, bumpy)?
- Is there adequate shade
- Is fixed equipment placed to avoid direct exposure to the sun?
- Are there any environmental pollutants (eg a parking lot next to the play space)
- Are there entrapment spaces (holes or openings) smaller than 9 cm or larger than 23 cm?
- Are there appropriate and secure safety barriers, guardrails and railings for structures that incorporate stairs, landings, ladders, tunnels, bridges, etc?
- Does the play space offer activities to encourage the development of perception and physical skills, including running, walking, climbing, dodging, swinging, sliding, throwing, catching, pulling, and pushing?
- Are there separate areas for active play, social/dramatic play, fine motor play, gross motor play, as well as quiet play?
- Can you see all areas of the play space at all times?
- Is there an appropriate fall zone (use zone) of at least 6 feet extending in all directions from any fixed equipment such as climbers or slides?
- Is all equipment developmentally and age-appropriate (i.e., toys and equipment for infants, toddlers, preschoolers and school-age children).
- Is the equipment suitable for the age group of the program?
  - Equipment for toddlers is no more than 0.9 meters (three feet) in height.
  - Equipment for preschool children is no more than 1.5 meters (5 feet) in height.
  - Equipment for school-age children is no more than 2.3 meters (7 feet) in height.
- Is the fixed equipment installed with protective surfacing such as soft sand, wood chips, pea gravel or rubber material to reduce the risk of injury from falls?
- Is the protective surfacing the appropriate depth for the height of the equipment?
  - Minimum of 15 cm (6 inches) for 1.5-meter (five-foot) equipment height
  - Minimum of 30 cm (12 inches) for 2.3-meter (seven-foot) equipment height.

Outdoor Play Areas located outside the property boundaries

Programs often plan to supplement their outdoor play area with using local parks or other play areas, however this can pose an increased risk to the health and safety of the children.

If you are proposing to use a play area located outside your property boundaries Licensing will request that you submit a detailed plan outlining how you will ensure the health, safety and well-being of children, and meet legislative requirements.

The Child Care Licensing Regulation, Schedule B (6), (7), and (8) contains information on what will need to be submitted to your Licensing Officer.

CCLR Schedule B
6  An applicant must provide a site plan, drawn to scale, showing all of the following:
(a) the proposed location of the community care facility, including the property boundaries;
(b) subject to section 8, the location and dimensions of the outdoor play area intended for regular or daily outdoor activities;
(c) if children will be attending outdoor play areas or activities located outside the property boundaries on a regular or daily basis,
   (i) the distances from the community care facility to the outdoor play areas and activities,
   (ii) the routes to the outdoor play areas and activities, and
   (iii) any major physical features that may affect the safety of children, including roads and bodies of water, located along the routes to, and in the immediate vicinity of, the outdoor play areas and activities.
Considerations to include in your plan:

The site plan:
- The name of the area/park and the surrounding streets.
- The route that the children will use to access the away play area and return to the facility, and the approximate distance to the away play area.
- The type of access the children will use to travel to and from the away play area, eg sidewalks, fenced pathways, plus traffic flow during the time children will be using the away play area.
- How will the children get there – walking, strollers, wagon etc
- Posted speed limits on routes traveled by children and the existence of cross walks, traffic signals and intersections.
- The location of and type of play equipment available to the children.
- The location of, and purpose for, other buildings in the play area including washroom facilities.
- Enclosures, if any, and a description of the type of enclosure.
- The exact location within the away play area that will be used by the children.
- Are there bathrooms available for the children to use while at the play area?

The use pattern
- Information about other groups who will be using the away play area (numbers and ages of the children, times that the away play area will be used by other groups).
- If the proposed away play area is located on school grounds, a traffic pattern that identifies times when traffic will be concentrated in the area. (eg drop off and pick up times).

The supervision/safety plan
- The number and ages of children who will be using the away play area.
- The staffing and supervision plan for travelling to and from the away play area.
- The manner in which the health, safety and well-being of children will be maintained.
- Communication equipment that will be readily available for staff supervising the children.
- Information on how you will respond to, and communicate appropriately during, an emergency.

The program plan
- The number of times during the day children will access the away play area.
- How you intend to meet the intent of Schedule G during the time children spend at the away play area.
- The staffing and supervision plan for while the children are at the away play area
- Any community services that will be used, including pools or recreation centres.
- An alternative area that will be used by the children when weather conditions would make it unreasonable to use the away play area.

Parent Information
- A copy of the information that will be shared with parents regarding the safety of the children in care when traveling to and from and, during the use of the away play area.

Permission
- Written documentation allowing the away play area to be used by child care program (if applicable).

Please note that the plan you submit may not be approved by Licensing if there are health and safety risks to children.
A Licensing Officer will contact you to confirm receipt of your application and discuss next steps (including your initial inspection). All applications are processed in the order in which they are received, and your initial inspection may not take place for a few weeks.

At the Initial Inspection the Licensing Officer will discuss the proposed indoor and outdoor space, and an estimate of the potential licensed capacity (the actual capacity is calculated at the final inspection). The Licensing Officer will also review legislated requirements, and considerations for the type of program you are proposing. Once the initial inspection has been completed you will receive a report outlining the items that were discussed, and also confirming any outstanding issues that will need to be corrected prior to issuing a Licence. If you plan to move ahead with your application a Licensing Officer will guide you through the next steps in the process which include municipal inspections (if applicable), working on CCFL paperwork, and preparing for your final inspection.

To help you prepare for the initial inspection your Licensing Officer will provide a copy of the checklist used during the walk-through.
CCFL Paperwork

In addition to the documents submitted at the start of the application process, there are additional documents that you are required to submit which form part of the ongoing assessment of suitability. These include:

Employee plan
- The proposed number of employees (if you plan to have additional help), their qualifications and expected duties
- The supervision and staffing plan, including while children are attending or being transported to and from outdoor play areas or activities located outside the property boundaries.

Safety Plan
- A plan showing how children will be transported to regular or daily outdoor play areas (e.g., local parks or playgrounds)
- A plan showing how children will be transported to regular or daily activities outside the property boundaries (e.g., local library, community centres, neighbourhood houses)

Policies
- Emergency Training and Equipment
- Behavioural Guidance
- Safe Release of Children
- Care and Supervision of Children
- Food and Drink to be given to the Children
- Active Play and Screen Use
- Repayment Agreement

Statement of projected monthly revenues and expenditures
- A statement of projected monthly revenues and expenditures, including
  - the estimated cost of employee salaries and benefits
  - the estimated cost of food, utilities, taxes, insurance, maintenance, housing (if applicable) and programs

Please see the Appendix for a pdf template that you can use.

Licensee/Manager documents
Due to the fact that in a Family Child Care or In-Home Multi-Age Child Care the Licensee is also the Manager, you will need to submit the following to Licensing:
- Application for Assessment of Suitability (containing the names of 3 references)
- Assessment of Suitability
- Open Book Quiz (if requested by the Licensing Officer)
- Criminal Record Check
- A record of your work history
- Copies of any diplomas, certificates, or other evidence of training and skills
- Evidence of compliance with the Province’s immunization program (and tuberculosis control program if applicable).
Policies

Policies and procedures are in place to communicate important information and expectations to staff and parents.

- A **policy** is a general rule that covers a specific issue or situation
- A **procedure** refers to the steps to take to ensure the policy is being followed.

While it is good practice to have a comprehensive policy and procedure manual, the *Child Care Licensing Regulation* and *Community Care and Assisted Living Act* (CCLR) only require that the following policies, procedures and records be maintained. During the application process you will only need to submit the following policies and procedures for review by your Licensing Officer.

- Emergency Training and Equipment  

- Behavioural Guidance  

- Safe Release of Children  

- Care and Supervision of Children  

- Food and Drink to be given to the Children  

- Active Play and Screen Use  
  [https://www2.gov.bc.ca/assets/gov/health/about-bc-s-health-care-system/child-day-care/active_play_june_2016.pdf](https://www2.gov.bc.ca/assets/gov/health/about-bc-s-health-care-system/child-day-care/active_play_june_2016.pdf)

- Repayment Agreement  
  [http://www.bclaws.ca/civix/document/id/complete/statreg/02075_01#section19](http://www.bclaws.ca/civix/document/id/complete/statreg/02075_01#section19)

The following pages provide some questions that will help you to develop your policies.
Emergency Training and Equipment

Emergencies such as a fire, gas leak, flood, severe storm or earthquake, could happen at any time, and your Emergency Training and Equipment policy will help staff understand how to protect the children in your care.

An approved fire drill system should include, but not be limited to:
- General fire safety
- Safety equipment
- Posting of fire drill system
- Training of employees in the implementation of the system, and any equipment to be used
- Practicing the system

The emergency plan will set out procedures to prepare for, mitigate, respond to, and recover from any emergency. Topics should include, but not be limited to:
- Missing / lost child (at the facility and on field trips)
- Natural Disaster (e.g. earthquake, flood, tsunami, wind storm)
- Other emergency (flood, gas leak, bomb threat etc)
- Emergency evacuation plan
- Training of employees in the implementation of the system, and any equipment to be used
- Practicing the system

Some suggestions for questions to ask yourself as you develop your emergency training and equipment policy ...

Being prepared:
- Where will the evacuation plan be posted so that staff can refer to it?
- Where would the meeting place be outside of the facility? Does it work for all types of weather? Do we need permission from anyone to use this as a meeting place?
- How will we evacuate any non-walkers?
- What supplies will we need to prepare in case of emergency for children? For staff?
- Where will the emergency supplies be stored?
- Are we prepared for an earthquake?
- Which records do we need in case of an emergency? How will we store them? Transport them?
- What do we need to have in place for children requiring additional support?
- How will we transport the children if we need to evacuate the premise?
- How often will regular staff, substitute staff and volunteers receive training on the emergency procedures?
- Do we have reliable communication equipment?

Practicing the emergency plan:
- How often will we practice fire drills? Emergency drills?
- How will we alert the children – whistle, bell, other sound?
- Where will we keep records showing that we have practiced drills?

Communicating with families:
- How will we let families know about the emergency procedures, including their child’s participation in an emergency drill?
Behavioural Guidance

Your Behavioural Guidance policy includes the strategies you will use to help guide children, plus the strategies that will not be used by staff.

Some suggestions for questions to ask yourself as you develop your behavioural guidance policy...

General:
- How will we make sure that our policy is age and developmentally appropriate?
- What are some of our preventative strategies?
- What are some of our intervention strategies?
- What steps will we follow when a child is not responding to the staff?
- What will we allow staff to use as guidance techniques?
- What will we not allow staff to use as guidance techniques?
- What will we do if a child’s behavior may cause harm to the child, other children, or the staff?
- What should staff do if a child doesn’t want to participate in an activity?
- How is the policy implemented if a child has a care plan in place? How will we record our compliance with the care plan?
- What should staff do if they observe inappropriate guidance techniques being used by others?

Communication:
- How will we make sure that staff, substitutes and volunteers are aware of the behavioural guidance policy?
- What will we do if staff, substitutes and volunteers do not follow/implement the behavioural guidance policy?
- How will we communicate the policy to families?
Safe Release of Children

Your Safe Release of Children policy ensures children are only released to authorized persons in whose care the child will be safe.

Some suggestions for questions to ask yourself as you develop your safe release of children policy...

Before a child attends:
- What information will we need to collect from the family before the child starts?
- What will we do if the family does not return all of the information before the child’s first day?
- What will we ask for if a parent tells us that there is a custody agreement in place?
- What if the child is in the care of the Ministry for Children and Family Development?

Once the child is attending the program:
- What happens if an unauthorized person arrives to pick up a child?
- What happens if someone who appears unable to provide safe care arrives to pick up a child (under the influence of alcohol, drugs, other substances or emotionally unwell)?
- What should staff do if someone insists on taking a child, even though staff believe they are unable to provide safe care?
- What happens if a child is not picked up by the time the program closes?
- What will we do if someone shows up to pick up a child, but they are not on the list of authorized people?
- What will we do if a family asks you to let their child walk home alone?

Maintaining children’s records:
- What will we need to do if a parent tells us that there is a change that needs to be made to the information on file?

Communication:
- How will we make sure that staff, substitutes and volunteers are aware of the Safe Release of Children policy?
- What will we do if staff, substitutes and volunteers do not follow/implement the Safe Release of Children policy?
- How will we communicate the policy to families?
Care and Supervision

Your Care and Supervision policy ensures that staff and families have a clear understanding of the expectations for when children are in the facility, and also on trips outside of the facility.

Some suggestions for questions to ask yourself as you develop your care and supervision policy...

General:

- How will we ensure that children are supervised at all times by adequately qualified employees?
- Is our Care and Supervision Policy age and developmentally appropriate?
- Will substitute staff be used within the facility to replace absent employees?
- How will these substitute staff be oriented to the policies?
- If the staff need a replacement because of urgent and unforeseen circumstances, who is the second adult that is immediately available? What is the procedure for contacting them?

During specific activities:

What will supervision look like during...

- Indoor play
- Transitions
- Nap time
- Meal time (including bottle feeding if applicable)
- Toileting
- Diaper changing
- Drop off and pick up time

Care and Supervision Outside:

What will supervision look like during...

- Regular outdoor play
- Transportation to a play area outside the property boundaries
- Drop off and pick up at a school (if applicable)

Communication:

- How will we make sure that staff, substitutes and volunteers are aware of the Care and Supervision policy?
- What will we do if staff, substitutes and volunteers do not follow/implement the Care and Supervision policy?
- How will we communicate the policy to families?
Food and Drink to be given to the Children

Your policy regarding the food and drink to be given to the children ensures that staff and families have a clear understanding of what children will consume during their time in the facility.

Some suggestions for questions to ask yourself as you develop your policy on the food and drink to be given to the children...

General:
- Will we provide food or ask families to bring all of the food from home?
- Will we expect staff to eat with the children? Sit with them at meal/snack time?
- What will our mealtime environment look like? Will we play music? Encourage conversation?
- What if a child is not hungry during the ‘scheduled’ mealtime, but wants/needs to eat sooner/later?
- What if a child refuses to eat?

If we will be providing food:
- How will we promote healthy eating habits?
- How will we ensure that the food and drink is sufficient to meet the developmental needs of the children?
- What will our considerations be for infants and toddlers e.g. storage and preparation of their food, introduction of new foods and feeding guidelines

If we will ask families to bring all of the food from home:
- Are there any foods that we would prefer that parents refrain from sending?
- How will we address special dietary needs? Allergies? Sensitivities?
- What will our restrictions be regarding special occasions and celebrations?

Communication:
- How will we make sure that staff, substitutes and volunteers are aware of the policy regarding the food and drink to be given to the children?
- What will we do if staff, substitutes and volunteers do not follow/implement the policy regarding the food and drink to be given to the children?
- How will we communicate the policy to families?
- How will we make information available to parents about the food and drink served to their children during the day?
Active Play and Screen Use

Your Active Play and Screen Use policy ensures that staff and families have a clear understanding of the amount of active play and physical movement children will enjoy during their time in the facility.

Some suggestions for questions to ask yourself as you develop your active play and screen use policy...

Active Play:
- How much active play will we provide?
- How will we encourage
  - Free play
  - Adult-directed games
  - Movement skills
  - Physical Literacy
  - Fundamental Movement Skills

Screen Use:
- How will staff model appropriate screen use?
- Will staff be allowed to have cell phones accessible while working?
- What types of screen time will be permitted within the facility for the children?

Communication:
- How will we make sure that staff, substitutes and volunteers are aware of the Active Play and Screen Use policy?
- What will we do if staff, substitutes and volunteers do not follow/implement the Active Play and Screen Use policy?
- How will we communicate the policy to families?
Repayment Agreement

Your **Repayment Agreement** policy ensures that you have clear business practices in place so that all persons are treated equitably. The requirements aim to build and establish a trusting business-like relationship between parent/guardian and the Licensee/manager.

Some suggestions for questions to ask yourself as you develop your repayment agreement policy...

**General:**
- Will we ask families to pay a deposit?
- How will we collect fees – weekly, monthly? What payment methods will we use?
- How much notice will the families need to give in order to withdraw from the facility and get their deposit back?

**Circumstances:**
- How much notice will we give families if we decide we can no longer continue to provide care for a child?
- On which days will we be closed during the year eg Vacation/Professional Development?
- Under what conditions will we refund the deposit/remaining fees? eg A family leaves the facility because the parent/guardian is no longer working, the facility can no longer meet the needs of the child and discontinues care, the facility can no longer meet the needs of the child and the parent withdraws, a child is ill and can no longer attend the facility.
- Under what conditions will we refund partial fees? eg unexpected facility closure due to power outage.

**Communication:**
- How will we make sure that staff, substitutes and volunteers are aware of the Repayment Agreement?
- What will we do if families do not follow the Repayment Agreement?
- How will we communicate the policy to families?
- How will we ensure that the enrolling parent/guardian is provided with a written statement clearly describing how refunds of prepayments are addressed?
- Where will we keep a copy of the written statement provided to the enrolling parent/guardian and a record of the name of the parent/guardian (in accordance with the Child Care Licensing Regulation)?
Records

Section 56 of the Child Care Licensing Regulation outlines the records that you are required to keep at the facility including:

- Access to a copy of your policies
- Staff files for anyone who assists you in the program containing all of the documents from section 19 (1)
- A copy of your own staff file containing all of the documents from section 19 (1)
- A log of minor accidents, illnesses and unexpected events involving children, that did not require medical attention and were not reportable incidents described in Schedule H.
- Copies of Criminal Record Check clearance letters for yourself and anyone 12 years of age and under who is “ordinarily present” during the hours of operation of the program.

Final Inspection

Once all CCFL and municipal paperwork and requirements have been met, a Licensing Officer will schedule your final inspection.

At this inspection Licensing will review the following:

- **The physical space** which includes a walk-through of the premise, toys and equipment to ensure that they are suitable for the age and development of the children, and are in good repair.

- **Any required administrative records** such as policies and procedures, program plan, children’s records, staff records (if applicable).

Even if all of the municipal approvals have been received, please do not contact Licensing to arrange your final inspection unless your facility should be completely set up, and ready to receive children...
FAQ

What happens if my application package is not complete?
Licensing is unable to initiate the application process until your application (as outlined on page 8) has been received. If you submit an incomplete application you will be contacted by a Licensing Officer who will let you know which items are missing, however it is important to remember that applications are processed in the order in which they are received and submitting an incomplete package will delay the process. If you are having difficulties with the application process, you are encouraged to contact a licensing officer for your area to discuss the challenges you are facing.

My house is quite large. Can I have one program upstairs and another downstairs?
For both Family Child Care and In-Home Multi-Age Child Care your whole house is the licensed premise. This means that regardless of the size of the house you are limited by the maximum group size in the Child Care Licensing Regulation, and can only operate one program at your address.

I have a child of my own – how does that affect my licensed capacity?
For both Family Child Care and In-Home Multi-Age Child Care your whole house is the licensed premise which means that any children 12 years of age and under are counted as part of your licensed capacity. For example, if your space is large enough for 7 children, but you have a four year-old of your own, you can only enroll a maximum of 6 other children in order to stay within your licensed capacity.

A member of my family owns a business that they operate from our home. Is that ok?
Section 35 of the Child Care Licensing Regulation states that a licensee must not conduct any business or activity that could interfere with the supervision of the children or the space used for the care of the children, or threaten the health or safety of the children. If you have any other businesses that operate out of your home it is recommended that you discuss this with a Licensing Officer early in the application process to ensure that your application is able to move ahead.

My parents visit twice a year and stay for a month. Do they need a criminal record check?
Under Section 20 of the Child Care Licensing Regulation anyone who would be considered “ordinarily present” when the children are in the program is required to undergo a criminal record check through the Criminal Records Review Program (CRRP) in Victoria. Family members visiting for an extended period would fall into this category, along with any international or homestay students.

How long will it take to process my application?
There are a number of steps involved in the application process and the time required for completing these steps will vary for each applicant, depending on the complexity of the application.

Can I care for children while I go through the application process?
You may provide care to a maximum of two children (or not more than one sibling group), unrelated to you by blood or marriage, prior to the issuance of a community care facility licence.

Can I hire someone to help me in the program?
The Child Care Licensing Regulation is clear that in both Family Child Care and In-Home Multi-Age Child Care the Licensee personally provides care. You are welcome to hire someone to assist you, however they should not be
When can I begin advertising?
You are not permitted to open or advertise as a licensed care facility until you have received a community care facility licence. During the application process you can make interested/potential families aware that you are in the process of applying to become licenced.

Is a community care facility licence transferrable?
A community care facility licence is issued for a specific building (address) and Licensee. When there is a change of Licensee or facility address, a new application for licence is required.

What should I do if there is a change in the information I submitted for my application?
You must notify Licensing of any change in the information you provided when applying for a licence.

How much does the application cost?
There is no fee to submit an application to Licensing, however there may be a cost attached to the municipal inspections. Your local municipality can provide information about these.

Is there any funding available to help me start up my facility?
Please refer to the following website for information.

Childcare BC New Spaces Fund:
https://www2.gov.bc.ca/gov/content/family-social-supports/caring-for-young-children/running-daycare-preschool/childcare-new-spaces-fund

How do I contact a Licensing office in my area?

North Shore Office: 604-983-6700
