START EVERY VIRTUAL VISIT WITH AN EMAIL INVITE FROM YOUR “HOST”

Your host could be a VCH staff member or volunteer, your loved one in care, or a family member or friend. They will ask you for your email address to send an email invite for a Zoom visit.

Your Host will decide when the invites are sent. You will get the invite just before your scheduled visit time or in advance. For example, you may get the invite a week before the Zoom visit.

How to join Zoom with your Tablet, Computer, or Smartphone

There are 4 steps to follow when you want video and phone dial-in options.

1. FIND YOUR ZOOM EMAIL AND JOIN THE VISIT

Go to your email “inbox” and find the email with Zoom in the subject header.

Open the email for instructions on how to join the visit.

You can click on the link provided in your email to join.

2. CHOOSE YOUR VIDEO OPTION

If you would like to join with video, click on “Join with Video”.

Alternatively, you can still join without video by clicking on “Join without Video”.

3. WAIT FOR YOUR HOST TO “ADMIT YOU TO THE CALL”

Please wait for your host to admit you to the call. Please be aware this may take a few minutes or longer. During this time, it’s like being “on hold” and you won’t be able to talk or hear anything.

4. CHOOSE YOUR AUDIO (SOUND) OPTION

There are two options to connect to your audio, it depends on the type of device you are using and the quality of sound you get on your device. Choose the option that’s easy and works for you.

While you are making your connection, Zoom will let your host know that you are connecting to audio. Please be aware that there can be a small delay until you are fully connected to the visit.
